

Ideawake - Release Notes of Continuous Delivery

June 24, 2025

 Version 1.3 includes highest priority bugs and continuous delivery (CD) tasks

Here are the key implementations and fixes:

1. In exports, added in the start date for different column filters.
2. Added 'star ratings' as a 'general community action' for experience points for the leaderboard functionality.
3. Users are no longer showing up as "pending" even when they are "active" users in a community.
4. Fixed PDF export where every word in a response to a custom field criteria was capitalized.

Detailed notes for each task:

1. In exports, added in the start date for 'days in current stage', 'days in current status', 'days in previous stage', 'days in previous status'.
 - Verified these newly added columns via Excel export for submissions at the challenge and community level.
 - Date Entered in Current Stage: When the opportunity moved to its current stage
 - Date Entered in Previous Stage: When the opportunity was in the previous stage
 - Start Date of Current Status: Beginning date of the current opportunity status
 - Start Date of Previous Status: Beginning date of the previous opportunity status
 - Tested and Verified 
2. Added 'star ratings' as a '**general community action**' for experience points for on leaderboard.
 - Tested and Verified 
3. Users are no longer showing up as "pending" even when they are "active" users in a community.

- Renamed the active users tab to all users and display all the users in it.
 - Tested and Verified 
4. Fixed PDF export where every word in a response to a custom field criteria was capitalized.
- Tested and Verified
